Card Holder Signature _____

Applicant's Signature _____ Date _____

ACTIVE

Individuals are afforded Active Member status if they live in the United States or its territories OR were active member prior to moving outside the U.S. borders or territories and meets ANY ONE of the following criteria:

- 1) Employed in a healthcare or research facility where their duties are comparable or equal to the duties of an anesthesia technician, technologist, assistant or aide and who are supervised by either an anesthesiologist, anesthetist or individual given supervisory responsibility for anesthesia technical personnel; OR
- 2) ASATT credentialed anesthesia technician/technologists who have maintained renewal of their credentials in accordance with ASATT regulations; OR
- 3) Any retirees who were anesthesia technology practitioners and who have maintained their membership in good standing with ASATT; OR
- 4) Active-duty U.S. military medical personnel who perform duties similar to those of anesthesia technology practitioners during the course of their military service; OR
- 5) SPECIAL CIRCUMSTANCE: Individuals who were Active members and due to their organization’s or facility’s reorganization or its economic reasons, the individual was displaced from technician duties but remains active and participates in ASATT. These individuals may continue to be recognized as Active members provided they continue to timely renew their membership and maintain an active role in the support or practice of anesthesia technology. THIS DOES NOT INCLUDE INDIVIDUALS WHO MAKE A VOLUNTARY CHANGE IN THEIR PROFESSIONAL PURSUIT OF EMPLOYMENT. Active members in good standing shall be entitled to all the rights and privileges of membership in ASATT including voting, serving as committee chairs and holding office.

LIFETIME

Lifetime membership is limited to those individuals who have served as President of ASATT. This category is regarded as an Active member status. (Note: Only the Board of Directors of ASATT can confer this membership status to an individual meeting the criteria.)

ASSOCIATE MEMBER

Individuals are afforded Associate member status if they hold a position related to anesthesia technology but do not meet the qualifications for Active member status. Associate members shall have all the rights and privileges of membership EXCEPT those of voting, holding office or chairing a standing committee of the Association. Subclasses of Associate membership include the following:

• **Individual**

Individual members are those who have an interest in the field of anesthesia technology but do not meet the qualifications of an Active member.

• **Foreign / International Members**

Individuals are afforded foreign member status if they are anesthesia technology practitioners in any country other than the U.S. or its territories AND (1) if they meet all of the qualifications of an Associate member AND they are citizens of or reside in any country other than the U.S. or its territories OR (2) any individual who is a member of an International Society of Anesthesia Technology.

• **Student Member**

Student membership is opened to students enrolled in ASATT-recognized anesthesia technology training programs. Note: Prior to January 1, 2004, students that have Active member status will remain as Active members provided they continue to renew their membership without any breaks of membership status. Upon completion of their program, re-application to ASATT in a non-student category is required. After January 1, 2004, all students applying for and accepted into membership in ASATT will qualify as an Associate member.

• **Physician or Nurse Anesthetist Member**

Anesthesiologist or Nurse Anesthetist practitioners who support ASATT and its membership in the pursuit or practice of anesthesia technology.

• **Industrial / Corporate Member**

Businesses, other profit-oriented organizations or individuals will be afforded Industrial membership if they meet the qualifications of an Associate member and their primary occupation or business is — or they spend the majority of their working hours directly or indirectly in — the sale, distribution, manufacture of equipment or products used in anesthesia technology.

• **Institutional Member**

This category is limited to academic, medical, hospital, philanthropic, scientific, governmental and non-profit organizations that express an interest in anesthesiology.
